Desk Officers,

Thanks for time and effort yesterday and today in ensuring that all of the changes go smoothly. I spoke to Miya and RAIO Travel will be sending out some guidance to you all to forward to your teams. It will include information about cancellation fees, vaccinations, travel orders, etc. We can expect that sometime later today.

Have there been any issues with canceling eCCs?

If there are any other pending questions or issues, please let me know.

Thanks!

Sonia

Hi Sonia and Ross,

CI Travel is in the process of modifying the return flights for those TDYers who are in DC for training to limit the call volume and wait time. Therefore, if the traveler has not already called, their flights will be modified by CI Travel and they should receive an email of their new itinerary.

In addition, I wanted to recap the following action items that need to occur ASAP by the respective personnel for the Circuit Rides.

- 1) Cancel ALL international ticketed flights (Desks/CI Travel).

Note: Instruct Travelers to contact the airline and seek a refund for any prepaid seating upgrade expenses.

- 2) Cancel TDY Location and Layover Accommodations (Desk/ CI Travel/Employee-if booked directly with the hotel)
- 3) Cancel ALL Country Clearances (RAIO Travel)
- 4) Return Passports to RAIO Travel for safe keeping (Employees)
- 5) Amend Travel Authorization(s) (RAIO Travel)
- 6) Adjust Credit Limits back to normal amounts (RAIO Travel/USCIS Travel Card-FOB)

Let me know if you have any immediate questions or concerns.

Dear RAD staff – I know that many of you have seen draft copies of an Executive Order related to the USRAP that is expected to be finalized and signed tomorrow. In light of this anticipated announcement, we've determined that it would be prudent to suspend circuit rides that are scheduled to depart between now and February 15.

We are also suspending the remaining PDBs planned for this week.

For our TDYers who are here in DC, we will be sharing information as soon as possible about travel arrangements for returning to home offices.

I hope to share more information tomorrow.

Barbara

From: Ruppel, Joanna
Sent: Friday, February 03, 2017 3:02 PM
To: RAIO - ALL1
Subject: Executive Order and Refugee Processing

RAIO Colleagues,

As you know, last week we made the decision to temporarily suspend departures for both the Refugee Affairs Division (RAD) and International Operations (IO) circuit rides until February 15. We also temporarily suspended refugee interviews at all international field offices. Following further consultations with the Department of State Bureau for Population, Refugees and Migration (PRM), we have jointly decided that the remaining 2nd quarter circuit ride and USCIS international field office interview schedule will be completely revised. PRM is instructing the Refugee Support Centers to cancel this quarter's USCIS circuit rides and field office interviews at this time.

RAIO will be working with PRM in coming weeks and months to discuss when circuit rides and field office interviews will resume and to identify any interviews that will be needed to reach this year's revised goal of 50,000 admissions, as well as the FY18 ceiling, which has not yet been determined. At this time, we do not have any information to share on 3rd and 4th quarter circuit rides or field office processing, but we will continue to share additional information as it becomes available.

I would like to encourage you to review the RAIO ECN site that we have begun building to share information with you, as well as to provide a space for questions and collaboration:

2017 Executive Orders

You will find there a place where you may submit questions anonymously. Or, you can identify yourself in case we want to get back to you with any follow up questions to clarify your question. While the site tracks number of "responses," that actually means number of questions. It may take a bit of time, but once we have a number of questions, we will work on posting the questions and responses. Also, something to watch for in the coming weeks is that we will be seeking your views on certain implementation issues through the feedback section of that ECN site (such as additional information it would be helpful to know when processing a benefit request).

Thank you for your support, flexibility and patience.

Joanna

EMEA Staff,

Please see the information below we just received this morning regarding refugee circuit rides. We wanted to be sure you have the most recent information right away.

At this time, we in IO are not being asked to cancel circuit rides that are currently deployed and we are not being asked to cease planning circuit rides that are scheduled to deploy. We will be discussing the situation with Maura today and will certainly keep you updated if that changes.

If you have any questions, please reach out to me and Joe.

Thank you,

Bobbie

Subject: FW: circuit ride update

All,

FYI that RAD is suspending CRs through February 15 in light of the Executive Order that is expected tomorrow and which will affect refugee processing. We will be awaiting implementing guidance from DHS once the order is signed and can then assess what action we may need to take on our 2 currently deployed CRs and those scheduled for departure in February. We'll also then get a sense of how our I-730 caseloads will be affected.

I'm sure you've seen drafts online of the executive order as well as much press about what's likely coming, but we don't know what, if anything, of what's been reported may get changed in the final hours before the EO is signed.

FYI,

Maura

Subject: circuit ride update

Dear RAD staff – I know that many of you have seen draft copies of an Executive Order related to the USRAP that is expected to be finalized and signed tomorrow. In light of this anticipated announcement, we've determined that it would be prudent to suspend circuit rides that are scheduled to depart between now and February 15.

We are also suspending the remaining PDBs planned for this week.

For our TDYers who are here in DC, we will be sharing information as soon as possible about travel arrangements for returning to home offices.

I hope to share more information tomorrow.

Barbara

Dear Sarah,

We just received information from IO HQ that this CR is cancelled. I wrote to RAIO Travel/CI Travel to cancel all travel arrangements including flights, layover hotel reservations, travel authorizations, and country clearances a few minutes ago.

Have a great weekend,

Serra Pehlivan

Hi Serra,

IO circuit rides, including Tel Aviv, are officially still on. Please don't have the team cancel flights and other arrangements yet. As soon as I have more information, I will let you know so that you know how to proceed. IO is planning to discuss this issue today, so we're hoping to be able to get you an update quickly.

Thanks,
Sarah

EMEA Staff,

Please see the information below we just received this morning regarding refugee circuit rides. We wanted to be sure you have the most recent information right away.

At this time, we in IO are not being asked to cancel circuit rides that are currently deployed and we are not being asked to cease planning circuit rides that are scheduled to deploy. We will be discussing the situation with Maura today and will certainly keep you updated if that changes.

If you have any questions, please reach out to me and Joe.

Thank you,

Bobbie

All,

FYI that RAD is suspending CRs through February 15 in light of the Executive Order that is expected tomorrow and which will affect refugee processing. We will be awaiting implementing guidance from DHS once the order is signed and can then assess what action we may need to take on our 2 currently deployed CRs and those scheduled for departure in February. We'll also then get a sense of how our I-730 caseloads will be affected.

I'm sure you've seen drafts online of the executive order as well as much press about what's likely coming, but we don't know what, if anything, of what's been reported may get changed in the final hours before the EO is signed.

FYI,

Maura

Subject: RE: Cancellation of Flights/hotels- FY17 Q2 Istanbul Circuit Ride

Dear Deborah,

All of the RAD circuit rides are suspended for an unknown period of time. We really don't know much about what might happen in the future. RAD will contact you once we the office decide on rescheduling any CR.

You will receive a separate email from our TDYer Coordinator in the coming days on how to return your equipment. Please let me know if you don't hear about it in a week.

Serra,

The only other communication I have received was the email from Michael Fattizzi on Wednesday 1/25/17, which indicates that the circuit rides were going to be postponed. I am assuming from your email that they are in fact, cancelled, not just postponed. Can you confirm for me so that I can update my management?

Will there be instructions forthcoming about what to do with the government iPhones we were issued in December?

Thanks,
Deborah

Subject: Cancellation of Flights/hotels- FY17 Q2 Istanbul Circuit Ride

Importance: High

Dear all,

Please note that your flights, hotel reservations in Istanbul, layover hotel reservations arranged by CI Travel, and travel authorizations are all cancelled. If you have made any hotel reservation at your layover location on your own, please take the necessary action to cancel them.

Thank you,

Serra Pehlivan
